

Be Informed.

EMERGENCY AND DISASTER PREPAREDNESS

What You Can Do

Locations

Learn the location of nearby safety and emergency shelters and evacuation routes.

Numbers

Know emergency contact numbers for different situations. Write them down somewhere safe.

Make a Plan

Develop a family emergency plan.

Supply Kit

Make an emergency supply kit to be prepared for any type of disaster.

Help

Know the locations of nearby trauma centers, hospitals and acute care centers.

Alerts

Learn about receiving emergency alerts and local emergency plans for shelter and evacuation, local and regional emergencies, and other alerts and warnings.

Awareness

Know which hazards are most likely to occur -- even when you are traveling.

Training

Discover opportunities for preparedness education and training.

Types

- Natural Disasters
- Technological & Accidental Hazards
- Terrorist Hazards
- Pandemics
- Home Fires
